

Figure 1

Figure 2

Figure 3 is a block diagram of a system for monitoring and controlling a process. The system includes a sensor 2, a controller 3, a data storage unit 4, a data processing unit 6, and a data output unit 34. The sensor 2 is connected to the controller 3, which is connected to the data storage unit 4. The data storage unit 4 is connected to the data processing unit 6, which is connected to the data output unit 34. The data processing unit 6 is also connected to the controller 3.
